Why join?

Experience

Quantium is chosen by iconic organisations across the world to solve their toughest challenges and unlock transformational growth

We operate globally, harnessing the power of data science and AI to shape the future of innovation for our clients and partners

We bring data to life using predictive, prescriptive, foundational and descriptive analytic methodologies

Learn

Quantium people are naturally curious and we don't shy away from an opportunity to upskill. We thrive on new challenges and stretch to outsmart the 'impossible'

At Quantium you will learn how to use the most advanced tools and you will be guided by the best analytical thinkers on how to use them

We actively foster a culture where our people can stretch themselves
to reach their full potential

Build

You're smart and are going places – working with Quantium will help you get there quicker. In fact, there's no sounder foundation on which to build or advance your career

As one of the world's fully diversified data science and AI leaders we operate across every sector of the economy. And we're growing fast - with growth comes opportunity!

We're passionate about home growing talent and supporting your development through opportunities internally

Live

Life is too short to waste time on a job that you don't love

At Quantium, you will be surrounded by a team who is excited to play in their space - grabbing opportunities and innovating intelligently

We pride ourselves on our culture made up of smart, fun, diverse and motivated people. Our DNA is our set of principles and behaviours that unite us as we work together to have an impact with clients and communities globally

Enjoy

Work has to work for you. Modern life is fast paced and balance can be tricky. You want to work where you are respected and valued as an individual, not a number

Quantium lives that life, embracing a flexible and supportive environment

What can we offer you?

Experience

Do great work, delivering best in class analytics and insights which help organisations make better decisions in service of their customers

Shape the future of the data science and AI industries by leading the revolution to design best practice analytics

Get your hands on complex and diverse data sets in a giant data eco-system

Enjoy access to one of the world's leading big data technology platforms

Learn

Do real work from day one, working directly with clients from strategy to execution

Get comfortable with ambiguity – operating in a world of 'new' and 'never been done before'

Collaborate in diverse teams and learn from the best and brightest minds in the market

Enjoy unparalleled development opportunities

If you're ready, take on a new challenge with a new product, industry or discipline

Build

Work with leaders who are accountable for helping you grow

Enjoy opportunities to work in squads, agile environments, internationally and with clients

Explore and develop new capabilities

Experience work that adds real value to your career at Quantium and beyond

Live

Work in a culture that values creativity, new experiences, high performance and passion

Enjoy the company of like-minded colleagues who become friends

Recharge your body and your mind with in-office drinks, snacks and games, plus an active social program to help you reset
